VOL. 6 No. 2 AUGUST, 1954.

Subscription 6s p.a.

POSTAGE EXTRA ON ORDERS UNDER 10/-.

## NEW ZEALAND NOTES AND COMMENTS

By CAMPBELL PATERSON

### Newsletters.

Owing to my being in the South Island this month, the September Newsletter will certainly be late in going out. The smaller—and delayed—August Newsletter was the result of my preoccupation with a civil case in which I was the plaintiff. Many of my friends will know of my trouble with a slip on this property last year and will be pleased to know that it was all finally settled on a reasonable basis.

### New Address soon.

The net result is that I have sold this house and have found new quarters in Remuera. The move over will not be made until well into September so mail should still be sent to Epsom. I will give the new address in September.

### Southland Centennial

The Secretary of the Southland Philatelic Society writes me that "a further approach" to the Postmaster General has brought forth a decision that a set of two stamps will be issued in 1956 to commemorate the foundation of Southland Province. Nice work—congratulations to an active and forceful Society.

### Elizabethan News

So far all half-sheets of the 1/- seen here with sheet value changed to "£4" have had the "8£" original value. However Mrs. D. Simms of Dunedin reports seeing "£8" sheets so treated.

A good shade variation appeared amongst some 1/- plate blocks recently purchased. Both centre and frame were notably paler than the usual. The centre was a real grey by comparison with the normal black.

Mr. C. E. Mayer of Auckland has found a number of sheets of the 2d. Plate 17 with a huge plate crack showing on the lower selvage immediately below the Plate block. This is the biggest plate crack I have ever seen in N.Z. stamps.

Mr. Colin Atkinson of Pukekohe is the first to show me the 3d. Elizabeth in numbered counter coil form. The (printed) numbers are in a smaller, finer type than on the majority of the George VI coils. We have hitherto seen this finer type only in the 3d. blue and 4d. purple-mauve George VI coils.

**George VI Coils**

There never was a more obvious time for filling in the gaps in your Geo. VI counter coil collection. The 3d Elizabeth coil has appeared and is "the writing on the wall." Don't delay—it is later than you think!

All offers are of pairs, mint with number on the gutter between the two stamps.

390 1d green pair, purple rubber stamp, fine VM paper .....	1/-
391 1d green pair, mauve rubber stamped, fine VM paper .....	1/-
