NEW ZEALAND NOTES & COMMENT by Campbell Paterson

Kingsford Smith Variety. I invite readers to look at the stars on the last two stamps in the third row up from the bottom of the sheet on either plate—or rather on both plates. If anyone can explain what they find there it is more than I can. Full details in the next Newsletter.

POT POURRI

- 215 **Postal History—Slogans.** For some years we have been putting aside envelopes from our incoming mail with any reasonably legible slogans or other postal markings which could be of interest to Postal Historians. They have been roughly sorted to give as wide a range as possible and little or no duplication. In certain cases they date back to 1950. There are odd First Day Covers, Meter machine impressions and so on. We can guarantee you will be satisfied with your bundle. Incidentally, we notice quite a few envelopes carry Commems or Healths; also numerous surviving examples of the old type "squared circle," "sixpence" and "concentric circles" marks—you will find these in your lot. While they last—

STAMPS & COLLECTIONS WANTED

We urgently need to buy first class N.Z. collections—the older stamps (pre-1934) are particularly wanted and we would welcome anything like specialised collections of Sidefaces, 1898-1907 Pictorials, Edwards, Universals, Dominions, George V—but we MUST buy so why not let us know what you have, whatever it is? Anything old on cover is always welcome, also pre-stamp covers, special historic pieces, early Antarctica—our wants are legion!

- 222 **1940 Centennial Rarity.** The extremely scarce Plate B2 of the 1 $\frac{1}{2}$ d value, in block. One of the top pair has a short perf. corner so we offer this as a perfect pair with Plate No. B2
